

2nd IEEE ITSS Student Competition in Pedestrian Behavior Prediction

Two Competition Tracks:

Pedestrian trajectory prediction from a bird's-eye view, using data from six surrounding cameras and LiDAR.

- Short-Term Prediction Track (3 seconds)
- Long-Term Prediction Track (7 seconds)

Eligibility:

- University teams worldwide.
- Led by an undergraduate or graduate student.
- Each team is limited to one track only.

Registration Fee:

Free

Important Dates:

- Competition Begins: **June 15th**
- Submission Deadline: **August 15th**

Prizes for Each Track:
